

# A novel project to conserve ecology

Special Correspondent

**CHANDIGARH:** The country's first Clean Development Mechanism (CDM) project has been launched in Sirsa district by the European Union to conserve environment by making rain-fed areas of the district lush green, an official spokesman of the

Haryana Government said here on Wednesday.

## **Carbon credit**

He further disclosed that the CDM was being implemented by the Haryana Forests Department. Under the project, carbon credit would be undertaken and farmers would be provided funds after

measuring the capacity of carbon credit which would improve their economic status and ensure greenery in the barren land.

Guriyakhera, Umedpura, Madhosidhana, Bhurtwala, Poharka, Neemka, Mallekan and Dhani Sheranwali villages were being covered under the project, he added.
